Overview

The Sexual Assault Testing and Evidence Collection Act (SATEC) was amended by Act 164 of 2018. Act 164 provides a sexual assault evidence collection program that grants responsibilities to the Department of Health (Department) and the Pennsylvania State Police (PSP) to establish civil immunity and provide for rights of sexual assault victims, while giving PSP the task to complete and submit a biannual report to the Department of Health (SATEC Act 164 of 2018). Act 164 was signed by Governor Wolf on Oct. 24, 2018, and went into effect on Dec. 23, 2018 (SATEC Act 164 of 2018).

Act 164 made several changes to the existing version of the SATEC. First, a new statutory provision, 35 P.S. §§ 10172.6, was created that mandated biannual reporting requirements on PSP. The newly created provision within the SATEC requires PSP to make an initial report to the Department by Dec. 31, 2018, and every six months thereafter. The PSP report must include the volume of sexual assault kits for which testing is completed, the average turnaround time to complete testing and the reasons for any delays. The report submitted from PSP to the Department in February is Appendix A.

Additional changes to the SATEC include:

- Establishment of a designated telephone number for health care facilities to call when law enforcement fails to take possession of the kit within 72 hours;
- Health care facilities must notify law enforcement within 12 hours of collecting sexual assault evidence; and
- Testing of evidence must be completed within six months of it being submitted to an approved lab

Every year by April 30, the Department is required to publish a report summarizing the information submitted by local law enforcement agencies to its website. This annual report is intended to provide a comprehensive overview of the number of untested sexual assault kits in the commonwealth and to ensure that those kits are tested in a timely fashion.

Methods

As mandated by the SATEC, law enforcement agencies were required to report the number of sexual assault kits in their inventory awaiting testing and the number of sexual assault kits in their possession with backlogged evidence awaiting testing as of Dec. 31, 2021. The SATEC defines backlogged evidence as “sexual assault evidence that is awaiting testing for 12 months or more” (35 P.S. 10172.2). Evidence is awaiting testing if it meets all the following conditions:

- Has been collected and is in the possession of a local law enforcement agency;
- Has not received DNA or other appropriate forensic analyses;
- Is related to a criminal case or investigation where final disposition has not been reached; and
- Should undergo DNA or other appropriate forensic analysis as determined by a local law enforcement agency.

Law enforcement agencies were notified by mail and email of the biannual reporting requirements of Act 164 of 2018, as well as the ongoing requirement to report backlogged sexual assault evidence. Questions in this year’s survey were the same as last year. Law enforcement agencies were asked to provide the number of sexual assault kits in the following categories:

- Backlogged kits awaiting testing;
- Kits for which no consent to test was obtained;
- Kits from anonymous reporters; and
- Kits for which the jurisdiction of the assault was unknown.

Findings

A total of 1,150 law enforcement agencies reported results this year, the highest number of reporting agencies since the inception of the mandatory reporting in accordance with the statute. The agencies, including campus police and approved laboratories, reported 186 backlogged sexual assault kits awaiting testing at the end of 2021. Though this is a 22 percent increase over the number of backlogged kits compared to the end of 2020, it is still an 85 percent decrease compared to the end of 2016. Police departments are also in possession of 872 kits where the victim has not consented to having the kit tested, 523 kits where the victim is anonymous and 118 kits where the assault occurred in an unknown jurisdiction. It should be noted that in many cases with anonymous victims, the jurisdiction is also unknown.

Table 1 includes an overview of the number of sexual assault kits awaiting testing as of February 2022. It also provides an overview of the number of kits for which the victim did not consent to testing, kits with anonymous victims and kits for which the assault occurred in an unknown jurisdiction.

Table 2 includes an in-depth list of each local law enforcement agency, university or laboratory that reported a backlogged sexual assault kit, the number of kits where the victim did not consent to testing, the number of kits from an anonymous victim (Jane Doe kit) and the number of kits where the assault occurred in an unknown jurisdiction.

Table 1. Number of Sexual Assault Kits

Rape Kit Inventory	Number
Total sexual assault kits awaiting testing at end of 2021	186
Number of kits where victim did not consent to testing	872
Kits with anonymous victims (Jane Doe kit)	523
Kits where the assault occurred in an unknown jurisdiction	118

Sexual Assault Testing and Evidence Collection Act- Sexual Assault Evidence Collection Program and Pennsylvania State Police Report of 2021, P. L. 1192 No. 164 (2021).

Appendix A

PENNSYLVANIA STATE POLICE DEPARTMENT CORRESPONDENCE

DATE: March 2, 2022

SUBJECT: Pennsylvania Sexual Assault Testing and Evidence Collection Act Survey for Mandatory Reporting for 2021

TO: Lori Gutierrez
Executive Policy Specialist *ISAC*
Pennsylvania Department of Health

FROM: Deborah A. Calhoun
Director, Scientific Services Division, Bureau of Forensic Services
Pennsylvania State Police

ENCLOSURES:

- (1) Letter to Law Enforcement Agencies dated November 18, 2021
- (2) Email Alert sent to Law Enforcement Agencies on December 13, 2021
- (3) Copy of Surveys sent to Law Enforcement Agencies and PA State Police via SurveyMonkey on January 3, 2022
- (4) Email sent to Pennsylvania Chiefs of Police Association on January 5, 2022
- (5) Reminder Letter to Law Enforcement Agencies dated January 19, 2022
- (6) Excel Spreadsheet of Survey Results for the Mandatory Reporting of Sexual Assault Evidence

1. Actions taken for the collection of data regarding the number of sexual assault evidence awaiting testing as of December 31, 2021, included the following.

October 2021

- List of Law Enforcement Agencies (LEA) including campus police and approved laboratories with active ORI numbers obtained from the CLEAN Administrative Section, Pennsylvania State Police (PSP).

November 2021

- Letter dated November 18, 2020, mailed to LEA with dates of Email Alert (12/14/20) and Survey (1/4/21). See Enclosure (1).
- eBulletin sent to PSP personnel instructing PSP Bureaus and Stations to submit

point of contact information for PSP reporting.

December 2021

- Email Alert sent December 13, 2021 to LEA contacts obtained from CLEAN and to LEA contacts from last year's survey. Alert stated date of survey and reporting requirement. See Enclosure (2).

January 2022

- SurveyMonkey launched January 3, 2022. Two surveys distributed, one to PSP and one to all local LEA. See Enclosure (3) for copy of surveys.
- Reminder email sent to those not responding within two weeks after receiving initial survey.
- Email sent to Pennsylvania Chiefs of Police Association on January 5, 2022. See Enclosure (4).
- Reminder letter dated January 19, 2022 mailed to LEA not yet reporting. See Enclosure (5).

February 2022

- Emails sent between February 3 – 8, 2021 to district attorneys asking their assistance in notifying non-reporting agencies.
 - Reminder emails sent to non-reporting agencies.
 - Survey closed February 22, 2022. No additional responses accepted.
2. Efforts were made to update the list of active LEA for this year's survey. The high number of small and part time LEA within Pennsylvania lead to chronic changes in status, personnel and location. Between December and February, PSP Bureau of Forensic Services provided responses to over 500 email and phone call inquiries from LEA seeking guidance regarding the mandatory reporting. Some respondents provided information regarding LEA currently disbanded, merged with other agencies or otherwise inactive. One question in the survey requested a list of municipalities serviced by the reporting agency. Inactive LEA were removed from the list if their municipality was serviced by another law enforcement agency.
 3. Four-year colleges and universities within Pennsylvania without an active ORI number were targeted this year and encouraged to participate in the survey. This gave all campus police/security the opportunity to report sexual assault evidence in their custody that met reporting requirements. Although campus police are mandated to report yearly, it is difficult to determine which colleges and universities have police or security departments.
 4. Questions in this year's survey were the same as last year. Law enforcement agencies were asked to provide the number of sexual assault kits in the following categories: backlogged kits awaiting testing, kits where no consent to test was obtained, kits from anonymous reporters, and kits where the jurisdiction of the assault was unknown.

5. The results of the survey for the mandatory reporting of sexual assault evidence are found in Enclosure (6). The Excel spreadsheet contains two tabs: 1) reporting agencies listed by county and 2) non-reporting agencies. The number of kits reported by each agency are listed in columns G through K. The list of non-reporting agencies was determined using the agencies with currently active ORI numbers as per CLEAN where no other information was provided to indicate the agency was disbanded, merged with another agency or otherwise inactive as well as four-year colleges and universities within Pennsylvania.
6. In summary, a total of 1,150 law enforcement agencies, reported results. This is the highest number of reporting agencies since the inception of the mandatory reporting in accordance with the statute. The agencies, including campus police and approved laboratories, reported 186 backlogged sexual assault kits awaiting testing at the end of 2021. Though this is a 22% increase over the number of backlogged kits compared to the end of 2020, it is still an 85% decrease compared to the end of 2016. Police departments are also in possession of 872 kits where the victim has not consented to having the kit tested, 523 kits where the victim is anonymous and 118 kits where the assault occurred in an unknown jurisdiction. It should be noted that in many cases with anonymous victims, the jurisdiction is also unknown.
7. The Non-Reporting Agencies listed in Enclosure (6) include the mailing address that the PSP contacted in an unsuccessful attempt to obtain data for this reporting period. As the Pennsylvania Department of Health (DOH) is ultimately responsible for obtaining backlogged evidence data from non-reporting sources, this information is provided to DOH for its information and review.
8. Under the most recent amendment to the Sexual Assault Testing and Evidence Collection statute, the PA State Police is to annually report the volume of sexual assault kits for which testing is completed, the average turnaround time to complete testing, and the reasons for any delays. The data from the three approved forensic laboratories within Pennsylvania is listed in the table below.

The average turnaround time to complete testing is calculated from the time the evidence is first submitted to the lab until the reports are completed.

LABORATORY	Cases Completed	Average Turnaround Time
Allegheny County Office of the Medical Examiner Forensic Laboratory (ACOME)	151	7.5 months*
Pennsylvania State Police Bureau of Forensic Services	915	108 days
Philadelphia Police Department Office of Forensic Sciences	367	98.2 days
TOTAL	1,433	

* The average turnround time of analysis was 5.44 months. The turnaround time from

submission to issuance of a report was 7.5 months. The turnaround time was impacted due to the dedication of senior DNA analysts to the training of more DNA analysts. While this effort will be beneficial to the efficiency of the ACOME in the future, the immediate impact is to reduce the time the fully trained scientist can dedicate to completing DNA reports. The ACOME had a fully trained DNA analyst accept employment with another organization on October 1, 2021, reducing the number of analysts capable of issuing DNA reports. Additionally, the COVID-19 pandemic changed many of the duties of the Forensic Biology Manager and DNA Technical Leader, drastically reducing the number of reports both fully trained individuals wrote, so that some cases would have to wait longer for the report to be written, once the data was obtained.

** Three cases submitted to the Pennsylvania State Police Bureau of Forensic Services in 2021 were not completed within the mandated 180 days. In two of the cases, the submitting agency initially requested no DNA analysis be conducted, but then later decided to add the request for DNA analysis months later. Had the two cases been processed normally, the 180-day turnaround time would have been met. In the third case, testing was delayed while awaiting the submission of a standard buccal swab by the submitting agency.
